### Customer Reviews

Pairone provided the web hosting solution that my company needed. We are a small firm and do not have a lot of in house technical expertise. Yet, we knew we needed to get our business online....

Jane Kleinfeld, UK

### All Plans Include

- Advanced Infrastructure
- High End Dell servers
- CDP Backups
- Flexible Billing Options
- Friendly Support staff

## WELCOME

We offer advanced Linux and Windows web hosting featuring PHP, MySQL, ASP.NET, Ruby on Rails (RoR), web analytics with advanced anti-virus and anti-spam protected email services.

**R1Soft**  
Continuous Data Protection  
For LINUX & WINDOWS

Your data is always secure on our servers. We use CDP (continuous data protection) technology to make up to 12 backups of your critical data per day.

#### Sitebuilder

We offer an advanced easy to use sitebuilder program to help first time users to easily construct a website.
